https://github.com/FiReLScar

Software Engineer with blazing fast code, creating mind blowing projects such as operating systems, compilers, and TCP servers, in hopes to one day compete against massive companies.

Experience

OPERATING SYSTEM DEVELOPEMENT

- Made an x64 kernel in C++ and Assembly
- Made an x64 bootloader in C++
- Made a custom LibC

COMPILERS

- Made a language in C++ that compiles to assembly
- Ported GCC to a custom operating system

TCP SERVERS

- Made a multithreaded HTTP server library in C++
- Created an TCP backend for a website to manage lights in houses

Education

LEFORS HIGH SCHOOL - (August, 2022)
